

PPAI's Legislative Education & Action Day - What's Happening on the Hill with Tax Reform

Paula Calimafde spoke to PPAI members on April 26, 2017.

The Promotional Products Association International is a trade association that represents the promotional products industry. This was the 8th annual legislative day that PPAI members participated in.

Paula spoke to approximately 80 members during the course of the event. She discussed the major tenets of comprehensive tax reform, including lower tax rates, elimination of a number of deductions and credits, simplification of the tax code and hopefully promotion of growth of our country's businesses by these changes. She delved into what the likelihood is of certain provisions making it into the final proposal and what the chances are for any kind of tax reform or tax cut this year. For a complete schedule, check out PPAI's event page.

Paula Calimafde chairs the firm's Retirement Plans, Employee Benefits and Government Relations practices.
