

Paula Calimafde Testifies Before Two Committees on Capitol Hill

The chair of the firm's Retirement Plans practice group, Paula Calimafde, recently testified before two committees on Capitol Hill.

Her first testimony was at the Senate Special Committee on Aging's hearing on the changing face of retirement security in America. The second was before the Small Business Committee at the House of Representatives and was entitled "The Challenge of Retirement Savings for Small Employers." In both cases, Paula delivered a brief oral statement and then participated in an extended follow-up question & answer session.
